Energy Storage & Distribution 2018

29 oktober 2018

The energy conference with senior professionals from Belgium, the Netherlands and Luxembourg

We are happy to welcome you at the 3rd edition of the annual conference: Energy Storage and Distribution. The high level strategic network event for the energy sector in the Benelux.

With the focus on the future of the industry, the central theme of this strategic event is: New business cases and the endless possibilities of batteries.

Over 130 leading directors from the Benelux will meet in Brussels and we are looking forward to meet you as well!
