

Euroheat and Power Congress

31 januari 2019

In 100 days the members of our community across every field of the DHC sector and beyond will meet in Nantes, France. This incredible diversity has provided much of the inspiration for the programme of this year's Euroheat & Power Congress. Whatever your particular background and interests, you're bound to find plenty of food for thought throughout our three days together. For further information, please have a look at our congress schedule www.ehpcongress.org.

PROGRAMME

New topics!

Key topics so far include:

[Changing the Future Today](#)

[The World is not Enough - Beyond Traditional Markets](#)

[Why Waste Heat?](#)
