

10-11 September 2019 | 36th EU PVSEC
Marseille Chanot Convention and Exhibition Centre
Marseille, France

The 3rd edition of the Solar Industry Forum takes place in Marseille on 10-11 September 2019

24 juni 2019

Location: Marseille Chanot Convention & Exhibition Centre, Marseille (France)

Are you involved in the PV or Electric Vehicle industry? Would you like to find ways to get ahead in the fast-changing PV industry?

Do you want to listen to the latest developments in e-mobility?

Are you interested to learn how to start your own PV factory in Europe or elsewhere?

Are you concerned about current PV component pricing and wonder if it is sustainable?

Do you want to provide services to the VIPV Industry?

Then the Solar Industry Forum is exactly the right event for you!

This 1.5-day event provides you with the unique opportunity of learning from the world's leading researchers, equipment suppliers, solar and car manufacturers who will all share their experience on PV and e-mobility.

The Solar Industry forum is an integrated parallel event of the 36th EU PVSEC which is accessible to all conference participants at no additional costs. If you'd like to attend the SIF, please follow the link below and register for the EUPVSEC conference.
